

Integration with PageUp

Verified Credentials' integration with PageUp lets hiring managers order, track, and view background checks directly from their PageUp account. This unique solution initiates background screening in any stage of the talent acquisition or employment process.

Access data from a single source

No more logging into multiple systems to access employment background screening services.

Real-time orders and statuses

It can reveal non-relevant information, leading to concerns such as not providing equal opportunity.

Unlimited background check packages

Set up UNLIMITED background check packages to screen based on unique job/role requirements.

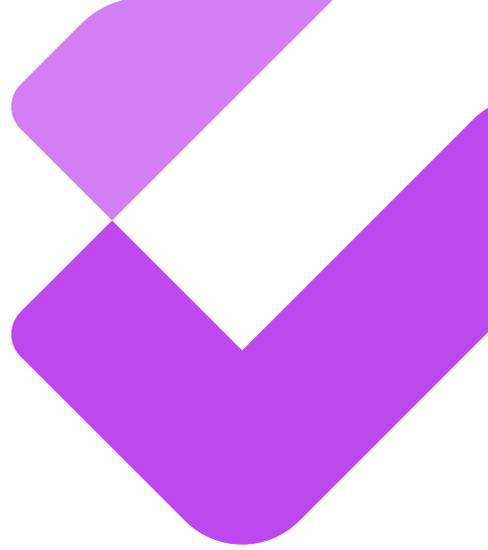

Eliminate redundant data entry

Candidate data is automatically transferred to Verified Credentials for order processing.

Easy set-up

Our integration solutions specialists complete simple mapping of data fields in a few weeks.

How it works

1 Order

Place order from your ATS dashboard

2 Status

Access live updates on each order

3 Report

View complete reports in your dashboard
